

JV350010

**Bronze
Angled
Storm Valve**

Flanged PN16

Other flange drillings on request

Storm valves also known as scupper valves, are basically swing check valves which can be supplied with or without a closing device.

They are used in sanitary discharge pipelines which have a ship-side exit, and prevent sea water entering the system during heavy sea.

Features, Benefits & Approvals

- Class society survey can be arranged
- 3.1 & 3.2 certificates available on request
- Optional open/shut indicators
- Supplied with or without closing device

Pressure & Temperature

Pressure rating:-
PN1

Temperature range:-
-10°C to 80°C
